

UK Haemophilia Data Managers Forum Group

Current Membership -60

Mission

The United Kingdom Haemophilia Data Managers Forum Group is a national group that works to share information, encourage and support data collection personnel working in Haemophilia Centres across the UK.

Purpose

- To be a support network for collectors of haemophilia data.
- To facilitate the sharing of information on haemophilia data management specific business within the UK through current networks and organisations.
- To work in partnership with existing haemophilia networks and organisations to develop synergy at UK level, with the aim of creating a uniformed approach as far as possible in data management and collection.
- To be an inclusive membership group that is open to all Haemophilia Centres within the UK who have a desire to promote the necessity for good data collation.

This group last met in Warwick in October 2012.

A scheduled meeting is taking place on 26th and 27th September 2013 in Manchester.
