## ***Meetings***

The Musculoskeletal Working Party (MSK) met once this year.

## ***Activities/Plans***

MSK working party this year has met once in person and by Teleconference on another occasion. Has had change in the Chair in the last year. Of the two guidelines the working party has agreed to author it was decided to prioritise the guideline related to standards of musculoskeletal care. As part of the work, the first round of Delphi consensus has been conducted and the second round will be completed later this year. Additional members have been invited to contribute to the first round of consensus. In addition, information on joint arthroplasty and synovectomy for patients are being reviewed.
