| Dr Anne Yardumian | Peer Review Programme Clinical Lead |
| Rachael Blackburn | Assistant Director WMQRS            |

As discussed and endorsed at the 2017 AGM, the Peer Review working party has continued a collaborative approach between the UKHCDO and the West Midlands Quality Review Service (WMQRS). Over the last 12 months the Working Party has met on several occasions.

The early part of the year focussed on finalising the Quality Standards for the care of Inherited and Acquired Bleeding Disorders. These were finalised and widely circulated.

WMQRS have coordinated the training for members of Peer review teams. 63 people have completed training and a further 36 are signed up for training.

The UK Peer Review programme will commence in November 2018. This will include visits to all Comprehensive Centres and several Haemophilia Centres. There will be 35 visits in total. Dates have been confirmed for 22 visits and 13 still to be confirmed.

The aim is to complete the programme of Peer Review visits over a 12-month period with the production of a summary report for the 2019 UKHCDO AGM. There will also be a Best practice sharing event in late 2019.

Dr John Hanley,  
Chair, Peer Review Working Party  
October 2018
